Dear Sir:

Perma-Treat of Illinois, Inc. is intending to comply with the drip pad standards. Control Process Systems Inc. will be doing the installation of our drip pad. The estimated cost of the installation will be \$19,400.00. The financial arrangement is cash.

Attached is a copy of Control Process System's letter on the quote. The installation should take place around the first of November, 1990.

Respectfully,

Perma-Treat of Illinois Inc.

Dear Rudy;

Per our conversation of this morning, we are revising our original quotation to an intalled cost of \$19,400.00

The above pricing reflects a deduct in our labor rates, a material profit deduct and the deduct we discussed on the restoration areas.

We can commence work on or about November 4th, providing your area is clean and all the concrete curbing is in place.

Please advise to the construction schedule so we can react accordingly.

Respectfully,

A handwritten signature in black ink, appearing to read 'Vern Blaylock', is written over the typed name.
